# SANTHOSH VIJAYALINGAM

**Aspiring IT Professional | Software & Data Enthusiast**

+91 8825614291 | santhosh1stbcab@gmail.com | github.com/santhosh164 | Santhosh V

## PROFESSIONAL SUMMARY

BCA graduate (2026) with hands-on project experience in Python, SQL, data visualization, and dashboard/application building, currently completing a Data Analyst certification covering Excel, SQL, Power BI, and Tableau. Detail-oriented and analytical, with a track record of cleaning and structuring real-world data, building interactive dashboards, and translating raw data into clear, actionable insights. Strong communicator who works well independently, solves problems methodically, and picks up new tools quickly — seeking an entry-level Data Analyst role to apply these skills to real business decisions.

## WORK EXPERIENCE

**Web Development Intern — Mella Studios Tech** *Salem, India*

*Project: Mahendran Travel Agency Website*

- Developed a fully responsive travel agency website from scratch using HTML, CSS, and JavaScript, ensuring consistent rendering across desktop, tablet, and mobile devices.
- Applied UI/UX and responsive-design principles to translate client business requirements into functional, data-friendly interfaces, reducing layout inconsistencies and improving page usability.

## PROJECTS

**Mood Detection & Music Recommendation System**

- Built an end-to-end emotion-detection pipeline in Python using OpenCV and Haar Cascade, processing live facial data to classify user mood in real time.
- Designed data-driven recommendation logic that mapped detected mood to curated music suggestions, delivered through an interactive Tkinter GUI for a smooth user experience.

**Consent-Based Access Control Dashboard**

- Designed and built a responsive analytics dashboard to visualize and track task priority, progress, and access status across multiple records in real time.
- Implemented multi-criteria filtering and live progress-tracking features, cutting down the time needed to manually check status updates and improving data readability at a glance.

## SKILLS

**Programming:** Python (Pandas, NumPy), SQL, JavaScript, HTML, CSS

**Data & Analytics:** Data Analysis, Data Visualization, Excel, Power BI (coursework), Tableau (coursework), Statistical Analysis, Machine Learning Fundamentals

**Web & Tools:** Bootstrap, Git/GitHub, OpenCV, Tkinter

**Concepts:** Cybersecurity Fundamentals, OOP Fundamentals, Responsive Design, UI/UX Basics

**Soft Skills:** Detail-Oriented, Problem-Solving, Analytical Thinking, Communication, Ability to Work Independently, Adaptability, Fast Learner, Teamwork

## EDUCATION

**Bachelor of Computer Applications (BCA) — Sona College of Arts & Science** *Salem, India | 2023 - 2026*

*GPA: 7.8*

**Higher Secondary Certificate (12th) — Vidyaa Vikas MHSS** *2022 - 2023*

*GPA: 84%*
